Submitting Your Layout to the Course GitHub

- Fork the source repo to your local repo
 - Can be done at <https://github.com/bmurmannelEE628/fork>
- Create a new directory in your local repo
 - Under main/5_Design/4_Layout
 - Use your team's name as your directory name, e.g., “Team 3”
- Add your layout to the directory
- Create a pull request from your local repo to the source repo
- **Request for each team**
 - Submit a test layout (can be anything) through the above mechanism
 - Complete by Monday 4/15
